FIGURE 8. NARCO-PARAMILITARY VOTING BETWEEN 1998 AND 2010 IN COLOMBIA

Narco-paramilitary votes were calculated following these steps. First, Congressmen, Mayors, and Governors who have been already found guilty for their linkages with paramilitaries were identified according to the files of Judicial Process for Justice and Peace. Second, number of votes by city and state of each of these politicians were counted according to the National Registry for the Civil State in Colombia.
